## TAPT'S PHYSICIAN TELLS HOW TO LIVE 100 YEARS

Chicago, May 11.—"Folks die from lack of work. They get rusty. They speak gloomily of how I've got a swell job; a snap—I only work four hours a day. That's why the world is at sixes and sevens today, and that's why they peter out at 40, 45 and 50." Be on the job every minute, and then you'll be happy, and happiness is the mysterious tonic that means first place in the century marathon race.

That's what Dr. Charles E. Baker, health adviser to Mr. Taft in the White House and now a wealthy man, told Rotary Club members today, in describing his system on

## THE U. S. ROYAL CORD

A famous tire—and a famous tread. Acknowledged among motorists and dealers alike as the world's foremost example of Cord tire building. Always delivering the same repeated economy, tire after tire, and season after season.

The stripe around the sidewall is registered as a trade-mark in the U. S. Patent Office.

# How you can measure tire value in 1921 —

"Any U. S. Tire is a universal full money's worth."

OFTEN it's surprising the number of different tire views that come out in a chance talk at the curb or in the leisure of a friend's garage.

Almost every day you come across the man human enough to believe he can outguess the cut-price tag on "job-lots," "discontinued lines" and "surplus stocks."

His opposite is the hard-pan car owner who sticks year in and year out to a standard brand as the only rational economy.

Many will remember the scarcity of U. S. Tires last year.

A hardship at the time, but a benefit now. There are no U. S. Tires to be worked off—no accumulations—no forced selling of any U. S. brand—no shipping of tires from one part of the

country to another to "find a market."

There are 92 U. S. Factory Branches. Each one gets its share of U. S. Tires. There is a broad, constant, even distribution of U. S. Tires always going on from these Branches to the dealer.

Buy a U. S. Tire anywhere—in a community of 500 people or even less—and you get a fresh, live tire of current production—with all the original service and mileage the factory put into it.

The owner of a medium or light-weight car stands on equal ground with every other car owner.

Any United States Tire is a universal full money's worth—backed up with a leadership policy of equal quality, buying convenience and price for everybody.

## SPORTS

An interesting and a meeting of importance of the Triangle Sport Club was held at the home of Julian Davis last night. The meeting

should follow your exercise, otherwise only a cool bath is advisable. Among the important measures brought up and passed was the re-election of officers. The officers elected for the year are: L. E. Roadhouse, president; Julian Davis, treasurer; Raymond Eaton, secretary; Horace Howard, manager; R. Wolford, official score keeper and Robert Whitton, reporter. Vernon

Edwards was chosen captain to fill the vacancy caused by the resignation of Roy Blunt. Besides an interesting talk by our president, new members were received, and our club pin distributed.

The business having been transacted, refreshments were served by Mrs. Davis, which were greatly enjoyed. The meeting was then adjourned until next Tuesday.
